

Beyond Expectation

Business Presentation

ABOUT US

Your gate to a digital company, we can help you achieve a digitized and more organized company by creating a software or a website depending on your needs. Our aim is to help you produce a website that is more user-friendly and accessible to all. mtg team of web designers and programmers

OUR VISION

Excellence

By giving attention to every detail, we provide outstanding products and unsurpassed service that. We give you only the best we can create—because it's just the right thing to do.

Team Work

By thinking and creating together, We work together, across boundaries, to meet the needs of our customers. We combine our strengths to give you a superior, more versatile solution.

Creativity

To us, creativity is problem solving, and we believe in solving the impossible. We carefully analyze and create a custom solution to help you stand out.

OUR STORY

Before 2008, Mr Wael Farouk (regional sales manager of the Red Sea Yellow Pages affiliate - 10 years of experience) was the motive for his future vision in creating a company in which he seeks to achieve an excellent user experience as mentioned in the word professional. 2007 was the first step toward this vision by establishing MTG in partnership with Professor Mona Waheed (Graduated from faculty of Applied Arts - Multimedia diploma at Information Technology institute - Digital Marketing diploma) his partner and wife who was responsible for technical department in web design and company identity industry, using their extensive experience with customers and the Egyptian market to achieve this Vision.

12 years of experience, designed hundreds of websites, achieved and are still achieving our vision by satisfying our customers. As the development of technology, we grew up a professional team who had different visions which was the secret of our difference from others, diversified our activities and invaded creative fields, and made our mark. Like any strong entity, it must continue anyway, and despite the loss of our visionary who taught us a lot,

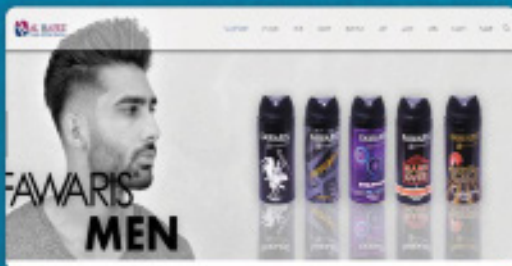

Mr. Wael (may God have mercy on him) we continued on his path to achieve the vision of MTG that was the reason of our success, and then took the path of Eng. Mona (Which taught us how to achieve the vision with true and sincere faith) under supervision of our executive director Nada Waheed.

Company Profile PDF

A company profile is an introduction to your business, and aims to tell an audience about your products or services. A company profile often includes the story about how the company began, as well as the company's vision and values. A company profile is part of a company's business plan that provides an overview of the company to potential customers and investors. It's a way to state what your business stands for, what your goals are, and where you place your focus. As well as featuring all the practical information that anyone might need to know about your company.

Logo Design, Corporate Identity

Your logo says a lot about your brand. If it looks good, it leaves a good impression on your potential customers. If it looks bad, it could leave a bad impression, even if your products or services are top-notch.

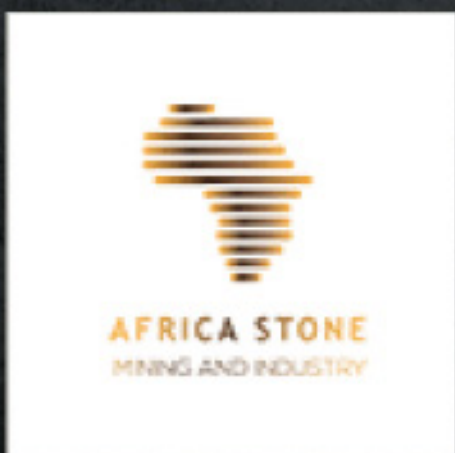

A logo is a key element that will identify your business. Your logo is likely to be one of the first interactions people have with your company and it's your opportunity to make a solid first impression, show you deliver a quality service, and visually express your purpose. Build trust, grow your brand, and make it unique with your own logo. Your logo is important to your business because it communicates ownership, quality, and values.

It's imprinted on your products, your business card, website, social media, and most importantly, in the minds of your clients.

With MTG creating your own professional logo is no daunting task, the design possibilities are endless.
